

FIRE SAFETY CHECKLIST FOR HOMEOWNERS

Ensure you have essential fire detection

Smoke Alarms

- ☒ Install Smoke alarms on every level of the home.
- ☒ Ensure they are installed inside and outside of sleeping areas.
- ☒ Ensure you have a Carbon Monoxide alarm located on each level of the home.
- ☒ Test regularly and change the batteries when needed.
- ☒ Change your alarm 10 Years from the date of manufacture.

Cooking Safety

- ☒ Keep flammable items away from cooking areas.
- ☒ Never leave your cooking unattended.
- ☒ Ensure your cooking appliances are regularly maintained as grease fires can occur.

House Keeping

- ☒ Avoid clutter and safely store flammable materials.
- ☒ Use electrical heating equipment responsibly.
- ☒ Inspect your electrical equipment regularly, faulty equipment can overheat.

General

- ☒ Avoid clutter and safely store flammable materials.
- ☒ Blow candles out after use and do not leave the room whilst there is a lit candle.
- ☒ Don't overload plug sockets.
